

SHARVARI BHONDEKAR

Software Engineer

Mumbai, India ♦ +91-9021240563 ♦ [Email](#) ♦ [LinkedIn](#) ♦ [GitHub](#) ♦ [Portfolio](#)

SUMMARY

Software Engineer specialising in LLM-powered applications, NLP systems, and full-stack AI products. Passionate about building production-grade tools that solve real-world automation and intelligence problems.

PROJECTS

Rosey

Mar 2025 — AI B2B Sales Outreach Platform

Stack: Next.js, TypeScript, Supabase, Clerk, OpenAI, Gmail API, WhatsApp (Baileys), Exa.js, XYFlow

GitHub: [Repository](#)

Built an end-to-end AI sales outreach platform automating lead research, personalised message generation, and multi-channel delivery across Gmail and WhatsApp. Features a Human Handoff mode where AI drafts outreach sequences while humans review and complete conversations, preserving authenticity at scale.

InterVueX

Jan 2026 — AI Interview Engine

Live: [intervue.vercel.app](#) — GitHub: [Repository](#)

Built an AI-powered interview simulation platform with adaptive questioning, real-time evaluation, follow-up logic, and structured feedback using large language models.

CrowdKavach

Jan 2026 — AI Crowd Safety Platform

Live: [crowdkavach.vercel.app](#) — GitHub: [Repository](#)

Developed a real-time crowd intelligence system to detect overcrowding, panic scenarios, and anomalous behavior using AI-driven analysis.

Sentira

Jan 2026 — Sentiment & Bias Analysis Platform

GitHub: [Repository](#) (Under Development)

Designed a social media analysis platform for sentiment classification, contextual bias detection, and opinion trend analysis using NLP techniques.

SKILLS

Languages: TypeScript, Python, JavaScript, Java, C, SQL

AI & ML: LLMs, Prompt Engineering, NLP, Sentiment Analysis, Bias Detection, Multimodal AI

Frontend: Next.js, React.js, Tailwind CSS, shadcn/ui, XYFlow, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI, REST APIs, Authentication Systems

Databases: PostgreSQL, MongoDB, Supabase, Firebase

Tools: Git, GitHub, Docker, Clerk Auth, Gmail API, Baileys, Exa.js, Google APIs, Linux

CS Fundamentals: Data Structures & Algorithms, OOP, System Design

KEY ACHIEVEMENTS

1st Place – Coherence’26, Sales & Outreach Systems Track (MLSC VCET)

Built **Rosey**, an AI-powered B2B sales outreach platform with multi-channel automation across Gmail and WhatsApp, and a Human Handoff feature for human-completed conversations.

1st Place (Individual) – Build with AI Hackathon (Edquest)

Built **InterVueX**, an AI interview engine with adaptive evaluation and feedback.

3rd Place – TechXpression X CSI Hackathon (B.K. Birla College)

Developed **Sentira**, a sentiment and bias analysis platform using NLP.

Top 5 Finalist – Codeverse 3.0 Hackathon

Built **CrowdKavach**, an AI-based crowd safety and risk detection system.

Winner – VNPS 2025 & Oscillation 2025

Presented **SynthIDEAL Pro**, a multimodal invisible watermarking system for text, image, and audio content.

EDUCATION

Bachelor of Engineering (B.E.) – Artificial Intelligence and Data Science

Expected 2027

Vidyaavardhini's College of Engineering and Technology, Mumbai

EXPERIENCE

Full Stack Development Intern – VisionRise Technosoft

2026

Working on the development of an education-based platform, contributing to both frontend and backend systems. Building scalable features, optimizing performance, and integrating APIs to enhance user experience and platform functionality.

AI Automation Intern – TheReds Information Technology Consultant

2026

Worked on building LinkedIn automation systems for business outreach using **n8n**, AI agents, and workflow automation. Designed end-to-end pipelines for lead generation, personalized messaging, and multi-step automation, improving outreach efficiency and scalability.

Amazon Future Engineer (AFE) Bootcamp Scholar – Zuvy

2025

Selected among the top 513 candidates nationwide. Advanced to Phase 2; trained in Python, Data Structures & Algorithms, and Java-based problem solving.

Research Presenter – IKS Conference

IIT Bombay — 2025

Presented a healthcare-focused AI research poster and discussed real-world applications with academic and industry experts.

CERTIFICATIONS

MERN Stack Development – EDBA Academy (EmpowerHer)

2025

[Certificate](#)

Contentstack TechSurf Certification

2025

[Certificate](#)
